

KETTERER Spezialfahrzeuge AG acquires SCHULER Fahrzeugbau GmbH

Already in June 2011 KETTERER Spezialfahrzeuge AG, Karlsruhe, acquired SCHULER Fahrzeugbau GmbH, Ebhausen. On this occasion, both companies have repositioned themselves for a broad range of future tasks, sharpening their specific profiles of core competencies.

As an acknowledged supplier for equestrian sports trucks and premium motorhomes, KETTERER has extended its portfolio, which now also comprises solutions for both individual and team sports as well as for businesses requiring mobile premises – unique concepts in premium quality and with award-winning, innovative designs.

This equally benefits SCHULER – with a contemporary appearance and under new management yet with the same dedicated team. Due to synergies with KETTERER, the vehicle manufacturer from Ebhausen will not only excel in highest technical standards and first-class workmanship, but will also lead the way in terms of creative design. In the future, the product range will include Motorsport, Hospitality, Promotion und Closed Car Carriers, and, what's more, will provide for the special demands of customers beyond Formula One and car manufacturers sports.

Thus, both KETTERER and SCHULER will create momentum setting trends in their respective segments: offering unique mobile vehicle solutions, which are perfectly made to measure for their customers' requirements!
