

**KETTERER CONTINENTAL at the CARAVAN SALON DÜSSELDORF**

In line with its motto “The new art of travelling”, KETTERER Spezialfahrzeuge AG, Karlsruhe, will present itself at the CARAVAN SALON DÜSSELDORF, hall 14, stand no. 14C28 from 26.08. – 04.09.2011. This year, the specialists for premium mobile homes will showcase their new model range KETTERER CONTINENTAL, for which they have already received the “caravanning design award: innovations for new mobility” in cooperation with red dot projects in 2010. In addition, they were recently nominated for the German Design Award 2012. In Düsseldorf, KETTERER will prove its extraordinary approach to innovative design displaying the KETTERER CONTINENTAL 11250 in an optional version including a garage for a smart.

From now on, when travelling, you can continue to enjoy your accustomed comfort and the privacy of a mobile suite – since this is what will eventually make your holidays a memorable experience. As a premium class motor home, the KETTERER CONTINENTAL offers you a unique architecture on wheels, employing most exacting standards of design and functionality. It combines an inimitably spacious concept, masterly executed craftsmanship and relaxed driving pleasure as well as exemplary safety and optimum service. With the extremely safe and reliable technology of leading truck manufacturers as its basis, KETTERER has developed special engineering solutions and distinct equipment features. All this ensures a driving comfort like never before.

In the KETTERER CONTINENTAL 11250, two KETTERER POP OUTs set in a row extend the interior, accommodating a lot of storage space, a generous private area consisting of a bathroom and a bedroom plus a separate guest toilet – in a quality like at home! Whereas the standard model can easily take a scooter on board, in this version there is even room for a smart – just right for a quick outing! Moreover, KETTERER garages are available with still larger dimensions, e. g. suitable for a MINI or an Audi A1. Enjoy homely comforts when travelling, true to the KETTERER claim “Welcome to your second home!”. As a manufacturer with over twenty years experience, KETTERER is consciously setting new standards: high-level understatement in uncompromising quality which leaves nothing to be desired.

On the occasion of acquiring SCHULER Fahrzeugbau GmbH, Ebhausen, in June 2011, KETTERER has rearranged its portfolio, in order to be well positioned for a broad range of future tasks. Besides the field of travel, KETTERER is an acknowledged supplier for equestrian sports, for both individual and team sports as well as for business solutions requiring mobile premises. Its highly-awarded design expertise will now also benefit the SCHULER product range, sharpening the profile of core competencies like motorsport, hospitality, promotion and closed car carriers. Altogether, KETTERER creates momentum setting trends in all areas of premium trucks.
